TO HOLD HEARINGS and evaluate testimony before allowing the Museum of Art and Design to destroy this Edward Durell Stone architectural treasure; a novel and daring style in which a modern building incorporates the Byzantine roots of the Venetian Gothic Style.

This unique edifice has many admirers. On our watch, we must attempt to acknowledge and preserve worthy art.

Organizations that have called for PUBLIC HEARINGS:
National Trust for Historic Preservation, The Preservation League of New York State, Municipal Art Society, Fine Arts Federation, Landmarks West, Historic Districts Council, DOCOMOMO, Modern Architecture Working Group, New York Artists Equity Assoc, Clinton Special District, Coalition for A Livable Westside, and Committee For Environmentally Sound Development

Attend City Planning hearing, 22 Reade Street, on June 18.
Call (212)720-3600 for confirmation.
